I just wanted to share with you how much my Sunday school class enjoyed the Under His Wings Lesson (I teach ages 4 -10). We used the lesson pretty much as it was written, but made one adjustment. We took the mother hen with her chick craft, and each child decorated and assembled their craft. On the baby chick, they wrote their names.

### Lesson 4 - Decimal Place Value (5th Grade Math)

I tell the students, "Today, we will discuss place value. By the end of the lesson, you will know the value of numbers to the hundred thousands place." This lesson aligns with 4.NBT.A1 because the students will recognize that in a multi-digit whole number, a digit in one place represents ten times what it represents in the place to its right.
